Communication Service for Gallipolis City Customers

The City of Gallipolis is using a communications service called NotifyNOW. We will use this service to deliver both emergency and non-emergency messages to you via telephone, email and text message. When we send you a message, the caller ID will always identify that the call is coming from our office phone so you will know that it is an official call. The message will be left on your answering machine or in your voicemail if you are not available when we call. You can play the message again if you did not hear it the first time by calling 1-800-747-6132. If you give us your email address or text message address, you will also receive notification via email and text. Each family can have up to four telephone numbers and four email/text addresses. In an emergency the message will be delivered to all of your numbers and email/text addresses.
