

FROM THE DESK OF THE CITY MANAGER

We have made it thru the Winter Months and Spring is finally here! With the Spring Weather comes all the work to get our yards spruced up. The same goes for the city. Our crews have begun the process of getting our Parks and Facilities in shape. Mowing will soon begin and we ask that everyone be aware if you see our guys out mowing or weed eating.

The Riverfront is moving along. Curbs on First Ave are being replaced with larger ones and Electrical Work has started. Work on the bank has started as well with dirt being brought in to slope the bank so it can be ADA Accessible. Concrete will continue as needed and as weather permits.

With the break in the weather, work on the Water Replacement Project is continuing.

We have started to get the Pool back in shape for the Swim Season. Power washing, painting and general maintenance is ongoing. We had a great first season back and anticipate to have an even better season this year. We will soon announce pricing, hours and private swim lessons for this season

Gallipolis In Bloom will hold their Annual Planting Day on Saturday, May 02, 2026 at the City Park, along with various other areas within the city, beginning at 11:00am. Before the planting begins there will be a Plant Exchange, in conjunction with the Visitors Center, beginning at 9:00am and will run until planting starts. This is a great way to get involved in the community. Gallipolis In Bloom would appreciate any volunteers that would like to help make our Park and other areas of the city beautiful. Without these volunteers and the countless hours they dedicate to our park and the flowers, our park would not shine as it does.
